

MTSS-mba Tracking & Administration Software for Taft-Hartley Membership & Employee Benefit Funds

Talbot Business Solutions, LLC, a premier software solutions provider, announced today the Spring 2010 Open House Product Training and Answers session for their Membership and Benefit Fund Administration software product, MTSS-mba.

April 23, 2010 – Gaithersburg MD - Talbot Business Solutions, LLC, a premier software solutions provider, announced today the Spring 2010 Open House Product Training and Answers session for their Taft-Hartley Membership and Benefit Fund Administration and Management software product suite, MTSS-mba. Customers as well as potential customers are welcome to attend. It will be held on Wednesday, May 12 from 10am – 12:30pm EDT at their offices in Gaithersburg, MD.

Solutions to be covered will include membership demographics and dues tracking among multiple employers, health and welfare plan selection tracking and provider reconciliation processes, pension remittance processing, pension vesting rules, document imaging integration and utilization, legal services benefit tracking, and over-the-counter operations. Attendees will come away with a solid understanding of how MTSS-mba provides tremendous relief in the day to day collection and management of membership and benefit fund operations. There will be ample opportunity provided for questions during a general question and answer period.

There is no cost for the event but advance notice is required due to limited seating. Those planning to attend need to RSVP by Fri May 7th to OpenHouseEvent@MTSS-mba.com

MTSS-mba is a custom-tailored software product for tracking and administering membership and benefit fund information, serving private and the Taft-Hartley multi-employer benefit fund industry.

MTSS-mba began as a custom developed software application in 1991. It was designed to track and administer membership and membership benefit fund data for membership based organizations and entities such as Health and Welfare or Legal Services Funds. MTSS-mba – Membership and Benefits Administration Software, is the result of careful study of current private and Taft-Hartley multi-employer, employee benefit administrator’s informational and data processing requirements.

Since its inception and introduction to the market place, the feature set of MTSS-mba has continued to expand. These features now include reporting and calculating dues, benefits eligibility, payments, payment shortages, document imaging, member and benefit statistics; automatic downloading of employer and membership data, benefit provider reconciliation, eligibility and benefit experience costing, pension remittance and vesting processing and most recently, web access; all of which reflect a mature product’s evolution, responding to industry changes and user requests.

Every MTSS-mba module and feature has been designed for user friendliness and user tested to ensure it is providing the desired information. MTSS-mba modules are seamlessly interwoven and result in a cohesive, intuitive application that runs smoothly, fast, and fits each user’s needs to a ‘T’. MTSS-mba is easy to maintain and designed to be contention free; even for hundreds of simultaneous users - so ‘nobody has to wait’. Data is quickly and easily retrieved at your desktop; right where you need it.

Simply put, MTSS-mba was “Designed to make you a Hero!” To learn more about MTSS-mba visit: <http://www.MTSS-mba.com>
